

Set Up Guide

in.touch™

you're always in touch with your relaxation

A cool new app for spas

WARNINGS:

Before installing or connecting the unit, please read the following.

- *FOR OPTIMUM PERFORMANCE PLEASE CAREFULLY READ THE MANUAL BEFORE INSTALLATION.
- *INSTALL THE MODULE AT LEAST 12" (30 CM) AWAY FROM ANY METAL PART OR ANY METAL FOIL.
- *THE MODULE SHOULD BE INSTALLED SO IT CAN BE RELOCATED UNDER THE SPA TO OBTAIN THE OPTIMUM RECEPTION SPECIFIC FOR FINAL INSTALLATION OF THE SPA IN THE YARD.
- *TO SATISFY FCC RF EXPOSURE REQUIREMENTS FOR MOBILE AND BASE STATION TRANSMISSION DEVICES, A SEPARATION DISTANCE OF 8" (20 CM) OR MORE SHOULD BE MAINTAINED BETWEEN THE IN.TOUCH MODULE AND PERSONS DURING OPERATION. TO ENSURE COMPLIANCE, OPERATION AT CLOSER THAN THIS DISTANCE IS NOT RECOMMENDED.
- *THE ANTENNA(S) USED FOR THIS TRANSMITTER MUST NOT BE CO-LOCATED OR OPERATING IN CONJUNCTION WITH ANY OTHER ANTENNA OR TRANSMITTER.

Compatibility requirements

In.touch module:

Model: 0608-521012 IN.TR-IT-P1-P2-P3-P4-CO

Model: 0608-521011 IN.TR-IT-P1-P2-P3-P4-P5

Compatible spa controllers:

in.xm2, in.xe, in.ye, and in.yt with compatible software revisions.

in.touch application

Compatible with:

iPod touch (3rd, 4th, 5th generations)

iPhone (3GS, 4, 4S, 5)

iPad

Requires iOS 5.0 and higher

WARNING: Routers blocking broadcast messages and/or using WEP encryption are not compatible with the in.touch.

Installation Tips

The in.touch module should be installed as close as possible to the house to optimize the signal strength. It is recommended to install the side of the spa with the in.touch module facing the house. In some cases, it will be necessary to relocate the unit once the spa is installed in the yard.

Problems with WiFi range

If the range is limited and the communication between the in.touch and the WiFi network is unstable, a WiFi range extender (such as the NETGEAR Universal Range Extender) should be installed between the two instruments. The WiFi range extender SSID needs to have the same name as the WiFi network SSID.

Set up

The in.touch module has a built-in WiFi transceiver that allows you to communicate with your favorite iOS devices. The following steps will show you how to connect with your spa.

1. Download application

in.touch world allows you to use the Internet anywhere in the world to control your spa.

in.touch home allows you to control your spa using your home WiFi network.

Both versions of the app are waiting for you at the App Store — search for "in.touch Gecko" then click on the version you want to install.

2. Set the point-to-point connection (ad-hoc mode)

For the first use, you must connect directly to the in.touch. After the connection has been established you can use your home WiFi network if you wish.

2.1 WiFi settings

On your iDevice, go to the WiFi section of Settings. The network named in.touch should appear on the list. Press on it to select the in.touch network. Once you've selected it, wait until the WiFi icon appears on the top left corner of the screen. This icon shows that your iDevice is now connected to the network.

2.2 Start the in.touch application

Find the icon for the in.touch application, then tap on it to open it.

The first time you use the app a message will tell you to add a spa to your list. You must add your spa to the list in order to configure it and use it with the application.

Once you tap Ok, you will see a list of visible spas. Tap on yours. Name it when prompted.

3. First use

1. Go to Settings in the in.touch app and select WiFi Connection.

2. Choose the network that you want your spa to connect to (i.e. your home WiFi). If the network has a security key, enter it when prompted.

As long as all hardware (router etc) and security keys remain unchanged you will not have to repeat this process.

Home network

Go to the WiFi settings section on your iDevice and choose the same network (if your device does not connect automatically).

Internet (world edition only)

Once your spa is connected to the Internet, you can use your in.touch world edition any time your iDevice is also connected to the Internet (wireless or cellular network), even if you are away from home.

A green icon with the word "Linked" beside it will appear at the top righthand corner of the My Spas page to confirm your connection.
