How to identify your spa filter cartridge

1 Majority of genuine Darlly filters have the part number printed on the end cap (eg "60401") Also the label which comes on the wrapper will have all details. (Please keep this for next time) Pleatco and Unicel will also sometimes have the part number on the end cap and this brochure as well as our website at www.darilly.eu contains all of their part numbers.

2 However, should you be without any part number simply follow our 'Find a Filter' guide below using various measurements and brand identities.
Failing all of this simply call us on +44 (0)1952 - 580500 we would be delighted to help you.

A Measure the outer diameter of the filter
measuring from the left edge of the filter to the right edge.

C

Measure the inside diameter of the opening of the cartridge or the inside edges of the thread. Holes are normally 50mm (2"), 75mm (3") or 100mm (4")
Threads are normally 38mm (1 1/2") or 50mm (2")

B

Measure the overall length of the cartridge
(Do not include handles or threads)

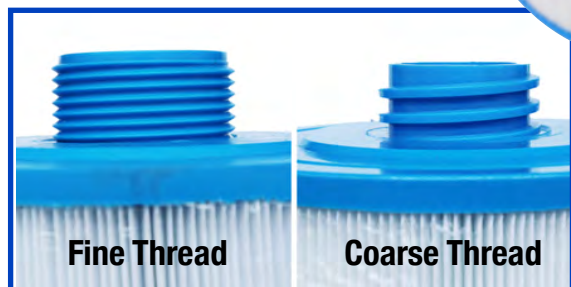

A more accurate measurement is made by measuring through the centre of the cartridge when possible

Fine Thread (MPT) has from 6 - 8 fine twists (Pleatco ends P4 or F2M) whereas Coarse Thread (SAE) will have as little as only 3 thicker threads (Pleatco ends P3 or F2S).

Will another Filter Fit my Spa?

The answer to this is surprisingly YES. Especially if it has a handle.

A handle filter is normally always with a threaded bottom and so long as the thread is the same, the diameter of the filter is similar and the sq ft of filtration similar then a longer or shorter filter will suffice so long as the filter does not come above the water line thus allowing in air.

*Filter measurements may vary.
Always allow a variance of +/- 5mm*

If you are having difficulty in finding your filter and find-a-filter pages have not worked here then do go www.darilly.eu
failing that please call us - we like telephone calls!!
+44 (0) 1952 580500

Comment identifier la cartouche filtrante de votre spa

A

Mesurer le diamètre extérieur du filtre
mesurer du bord gauche du filtre au bord droit.

B

Mesurer la longueur totale de la cartouche
(Ne pas inclure les poignées ou les pas de vis)
Une mesure plus précise sera effectuée en mesurant à travers le centre de la cartouche lorsque cela est possible.

Le pas de vis fin (MPT) présente de 6 à 8 filets fins (Pleatco P4 ou F2M) alors que le pas de vis épais (SAE) n'aura que 3 filets épais (Pleatco P3 ou F2S).

A

C

Mesurez le diamètre intérieur de l'ouverture de la cartouche ou les bords intérieurs du pas de vis.
Les trous sont normalement de 50 mm (2"), 75 mm (3") ou 100 mm (4")
Les pas de vis sont normalement 38mm (1 1/2") ou 50 mm (2")

Un autre filtre peut-t-il convenir à mon spa?

La réponse à cette question est étonnamment OUI.
Surtout s'il a une poignée.
Normalement un filtre à poignée a toujours en-dessous un pas de vis et tant que le pas de vis est le même, le diamètre du filtre et la surface filtrante similaires, un filtre plus long ou plus court conviendra, tant que le filtre ne dépasse pas la ligne d'eau, permettant ainsi à l'air de pénétrer.

*Les mesures du filtre peuvent varier.
Prévoyez toujours un écart de +/- 5 mm*

So identifizieren Sie Ihre Spa-Filterkartusche

A

Messen Sie den Außendurchmesser des Filters

Messen Sie vom linken Rand des Filters zum rechten Rand.

B

Messen Sie die Gesamtlänge des Filters (keine Griffe, Gewindestutzen etc. einschliessen)

TIPP: Eine genauere Messung wird erreicht, wenn Sie durch die Mitte des Filters messen.

Ein Feingewinde (MPT) hat ca. 6 -8 Gewindegänge dicht nebeneinander (der Filter von Pleatco® endet mit P4 oder F2M).

Ein Grobgewinde (SAE) hat ca. 3-4 Gewindegänge sehr weit auseinander (der Filter von Pleatco® endet mit P3 oder F2S).

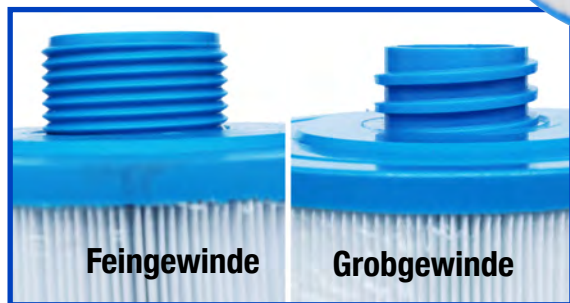

B

C

Messen Sie den Innendurchmesser der Öffnung des Filters oder den Aussendurchmesser des Gewindes. Die Öffnungen sind normalerweise ca. 50 mm (2 Zoll), 75 mm (3 Zoll) oder 100 mm (4 Zoll) groß. Die Gewinde sind normalerweise 46-48mm (1 1/2") oder 50mm (2")

Passt ein anderer Filter in mein whirlpool?

Die Antwort darauf ist überraschend: JA, vor allem wenn der Filter einen Griff hat. Dieser hat normalerweise immer an der Unterseite ein Gewinde und solange das Gewinde, der Durchmesser des Filters und die Filterfläche gleich sind, reicht ein längerer oder kürzerer Filter völlig aus. Wichtig ist dabei nur, dass der Filter nicht über die Wasserlinie hinausragt. Ansonsten würde der Filter Luft anziehen.

Filtermaße können variieren.

Lassen Sie immer eine Abweichung von +/- 5 mm zu

SILVERSTREAM

Using Silver Ion Technology impregnated into our filter media we are able to present Antimicrobial Protection for your filter and, more importantly, your bather.

This process gives this filter a premium finish with:

- Increased Filter Life
- A Cleaner Filter
- No Mould Growth
- Fewer Odours
- Fewer Cleaning Times

SILVERSTREAM

This symbol throughout the brochure indicates we have a Silverstream version available for that filter.

However, if you have a filter you require antimicrobial action and Silver Ion technology for just give us a call and we will check availability for you.

Villeroy & Boch Just Silence Filter (Article No. UCCOM1057)

SANI+STREAM[®]

Direct Line Filtration

Darby Europe invented their revolutionary SaniStream Direct Line Filtration System™.

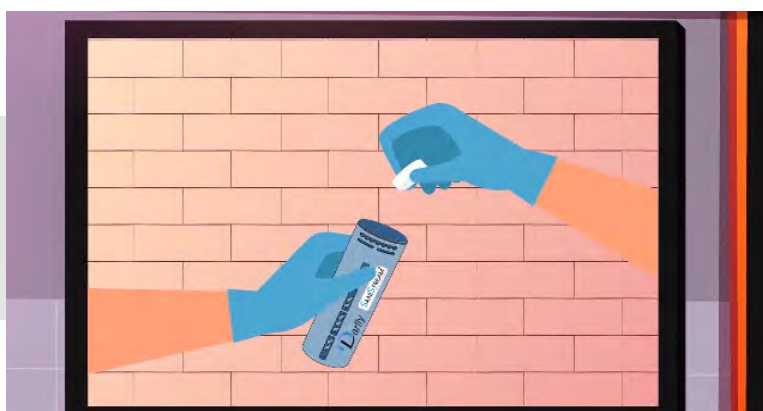

SaniStream™ is an inline dosing dispenser which allows for the continuous dosing of chlorine or bromine tablets, in a Hot Tub. It is fully adjustable to allow for the regulation of sanitiser flow depending on the demands of the Hot Tub it is fitted in. It can be filled and, more crucially, refilled with regular suitably sized chlorine or bromine tablets from the user's regular supplier.

SaniStream Direct Line Filtration System™ is designed to install in the void in the centre of an adapted Darby filter cartridge, so that dosing is inline and continuous whenever the spa is in a filter cycle or in actual use.

The design also allows easy access for inspection, refill, or replacement, while keeping it locked away out of sight of consumers using the spa.

The Sanistream™ system is perfect for the domestic sector to satisfy the needs of homeowners who want to avoid the pain of constantly hand-dosing chlorine or bromine, and don't want floating dispensers around and having to remember to remove and store them when they or their children wish to use the spa.

To Fit Some Of The Following Hot Tubs:

Sundance Spas: 6540-488, 6540-501, 6540-501, 6540-507 (new Micro-clean 2) This filter replaces both the standard filter cartridge & 5" disposable micro-clean element of a Sundance filter. This is a far more cost effective option since it avoids having to replace the micro-clean element every month. There is a bulkhead within the core for the separate circulation pump.

To Fit Some Of The Following Hot Tubs:

This is the disposable replacement for C-4950 (SC706 & C-4326 (SC704) It cannot be cleaned or washed but will probably last in the region of 6 months. However, this filter media gives a filtration of 1 micron which is the equivalent of drinking water. So it gives cleaner, purer water but does not last so long.

Darly	PRE-STREAM	Category	Pre Filter

Product Description:

Removes common water contaminants before they enter the Spa.

The Darly Pre-Stream pre-filter is 90% efficient at removing contaminants including: solids, dirt sediments, rust, iron, copper and other hard mineral deposits that could scratch your spa's surface and reduces staining.

Simply by attaching to your garden hose it reduces the amount of contaminants in the water before they enter the pool or spa and thus the amount of chemicals needed, to create the perfect water conditions.

Item	SC785	Units/Carton	10
Darly	CYCLONE CLEANER	Category	Cleaning

Product Description:

'Brush & Flush'

The Cyclone cleans deeper, in less time, and prolongs the life of the filter cartridge by leaving the treated filter cartridge restored to its previous condition.

Redesigned in 2018 and now using a uni-body design which eradicates leaks, longer brushes for deeper cleaning and a unique filter cleaner chamber to dispense your favourite cleaning solution saving time, money and whatsmore, its environmentally friendly as it uses far less water.

Item	SC795	Units/Carton	9
Darly	PURE STREAM	Category	Pre Filter

Product Description:

NO MORE SCALE - NO MORE HARD WATER

This Darly pure stream filter transforms calcium and magnesium into sodium using ion-exchange resins within the filter. Following this process, your water has the same quality as mineral water. This process removes the calcium and magnesium from water source leaving the lime scale in the filtered water suspended where it cannot cling to equipment or surfaces and producing soft water. This is highly beneficial because lime scale deposits are very damaging to the surface and to the internal workings of the spa and often uncomfortable for the user. Especially effective in hard water. Attach via hoselock fitting.

Item	SC796	Units/Carton	9
Darly	FILTER CLEANER	Category	Cartridge Cleaner

Product Description:

Filter Cartridge Cleaner

Double strength without the use of harsh chemicals. 6 - 12 months usage.

Removes calcium limescale, body grease and other contaminants.

Through the use of our deep cleaning formula your filter will last longer.

Only available in UK cartons and on Pallet orders within EU.

Item	SC800	Units/Carton	6
Darley	NATURE 2	Category	Mineral Purifier
Product Description:			
Nature2 SPA is perfect for spa owners looking for an eco-friendly, low maintenance alternative to heavy chlorine or bromine to keep their spa clean and free of harmful bacteria and viruses. Nature2 SPA uses an EPA-approved mineral bed technology to effectively kill bacteria safely and effortlessly.			

Item	SC805	Units/Carton	20
Darley	DARLY DUCK	Category	Scum Sponge
Product Description:			
People will say we are Quackers, but we are delighted to introduce you to Darly Duck. Darly Duck is an incredibly talented fellow, he prevents scum lines from forming, which eliminates the need to scrub the acrylic shell of the spa. He reduces contaminants from clogging your filters and if that was not enough he absorbs 40 times his own weight in oils, lotions and cosmetics. Darly Duck likes to float freely and clean up, when one side is dirty, turn him over and he will continue his mission. Every now and again Darly Duck likes to be rinsed so buy Darly Duck now and let him do the dirty work.			

Item	DL815	Units/Carton	9
Darley	SPA POD	Category	Sanistream Pod
Product Description:			
For use in Darley Sanistream® filters, a watertight canister capable of holding 5-6 chlorine or bromine tablets with a controllable flow output. Should last, with normal operation, 2-3 weeks. Easy to use, safer sanitation and cost effective. SpaPod does not come with any Chlorine or Bromine, simply add when necessary. <i>Pods are supplied empty with NO tablets in.</i>			

Item	DL900	Units/Carton	18
Darley	AquaSparkle Pod	Category	Bromine Pod
Product Description:			
For use in Darley Sanistream® filters, the AquaSPARKle Bromine Pod (Chlorine Pod following shortly) is a larger version of the SpaPod but comes ready filled with enough Bromine Tablets to last you up to a month. (Available in packs of 3) No more handling of chemicals at all - simply pop your Pod into your filter and when it is depleted simply dispose and replace. PLUS the new AquaSPARKle pod is compatible with other proprietary Spa dosing systems and frames. Each pack (3 months) comes a complimentary clip for such frames.			

SPACOCKTAILS

by

Darilly

Fruity Fragrant Essences

Spa Cocktails are Intoxicating, Exhilarating and Relaxing. Using a combination of aromatherapy spa crystals include essential oils, fine fragrances and other natural substances including Dead Sea Salts; working together to awaken the senses.

Darilly's Spa Cocktails will enhance the spa experience, nurturing the body and spirit.

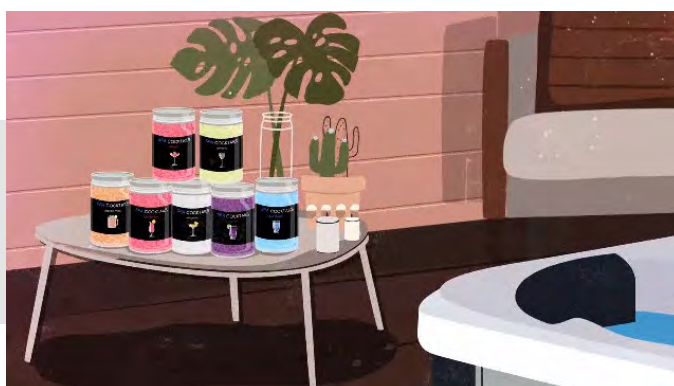

Our hand-crafted blends will immerse you in a soothing environment creating a caring and emotional wellbeing experience. Embrace our Intoxicating Spa Cocktails, their gorgeous aroma will turn the spa into a blissful sanctuary.

Available in 500g jars, and now available in 80g pouches which are perfect for consumers to try the Spa Cocktail experience and are perfect for the Holiday Resort sector. Spa Cocktails granules are spa safe, oil-free will not clog filters or jets, and will not affect water chemistry.

The packaging is attractively designed for retail display, with Darilly recommending that the crystals are displayed in Martini glasses to allow members of the public to nasally sample them before making a buying decision.
