Manual Cover Lifters

CoverMate I

The most recognized, no-hassle cover lift with time-tested performance

- Requires 10 to 15 inches of clearance behind the spa and 5 inches on each side
- TowelMate and foam grips included providing comfort and convenience

CoverMate I Eco

Quality and value come together

- Requires 10 to 15 inches of clearance behind the spa and 5 inches on each side
- Works on spas up to 8 feet in length or width

CURRENTLY UNAVAILABLE

CoverMate II

Out-of-sight peace of mind

- Requires 18 inches of clearance behind the spa and 5 inches on each side
- TowelMate and foam grips included providing comfort and convenience
- Optional slide-under-the-spa bracket system
- Works on spas up to 8 feet in length or width and 40 inches in height

CoverMate Easy

Simple design with superior quality and value

- Requires 18 inches of clearance behind the spa and 5 inches on each side
- TowelMate and foam grips included providing comfort and convenience
- Works on spas up to 8 feet in length or width

CoverCatch

The simple solution to cover storage

- Requires 10 inches of clearance behind the spa
- Foam-rubber pads provide soft, slip-free surface for the cover to rest on
- Arms measure 7 1/2" deep
- Works well on most smaller spas regardless of shape

CoverShelf

Remove the cover without removing the view

- Works well on most unconventional shaped spas
- Quick and easy installation
- Arms measure 32 inches in length

Hydraulic Assist Cover Lifters

CoverMate III

The perfect answer when clearance behind the spa is an issue

- Requires 6 inches of clearance behind the spa and 5 inches on each side
- TowelMate and foam grips included providing comfort and convenience
- Available with optional DeckMount bracket system (sold separately)

CoverMate III Eco

The same high-performance features of the CoverMate III, at a price that is nice

- Requires 6 inches of clearance behind the spa and 5 inches on each side
- Works on spas up to 8 feet in length or width

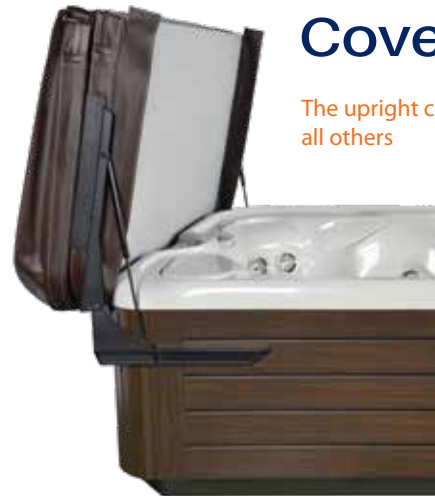

CURRENTLY UNAVAILABLE

CoverMate Vanish XL

Easy handling and an open view

- Requires 25 inches of clearance behind the spa and 5 inches on each side
- Provides smooth, fluid opening and closing of the spa cover
- Exclusive design allows for effortless operation

CoverMate Zero

The upright cover lifter that outperforms all others

- Requires 6 inches of clearance behind the spa and 5 inches on each side
- Ideal for spas up to 10 feet
- Zero racking means smooth and fluid movement when opening and closing
