

Introducing ModStep 2XL with Safe -T- Rail

Safety & Convenience in One Package

Safety and convenience should be a top priority for your customer – this attractive package offers both!

We've combined the popular Safe-T-Rail with our top of the line step to create a stable, sturdy accessory no spa owner should be without.

The ModStep 2XL is the only step in the industry that offers a wide landing platform that is safe and attractive. The large 24" x 35" top platform includes a non-slip, rubber tread to prevent slipping. Built with a powder-coated aluminum frame and polymer treads, the ModStep 2XL is the sturdiest, safest and strongest two-tier step on the market. The easy to attach handrail helps ensure the spa user is able to safely and easily enter and exit their spa. Quickly and easily assembles in 20

Enhancement Options
