

SmartDeck

8 x 12 SmartDeck

Optional Bullnose Trim

Structural Composite Ribbing

Includes

- Easy, cost effective alternative to a wood or cement deck
- Elegant stamped concrete texture, bullnose edging and black color add an element of style to any landscape
- Structural composite ribbing **supports spa weight (250 lbs/ft²)** and more
- Each panel locks together allowing the creation of small or large decks
- Modular component design and H-snap connectors allow for countless configurations
- Four 24-inch square panels per box allows for easy shipping and handling
- Great for permanent or temporary use (**temperature range is -40 degrees F to 200 degrees F**)

Dimensions

- ✓ Pad: Sixteen 2' by 2' squares – 1 ½" thick – total length with trim kit is 8' 3"
 - Each single unit case makes an 8' by 8' pad (sixteen 2' by 2' squares and 48 H Brackets)
