

Super clip™

Model 4600 Securement Clasp

Secure. Convenient. Cost-Effective.

For guidewires, catheters and drapes.

The cost-effective SuperClip™ devices help interventional labs and surgical suites manage guidewires, catheters and drapes during vascular procedures.

SuperClip enables greater convenience and lower procedure cost, without changing how interventional teams work.

Super clipTM

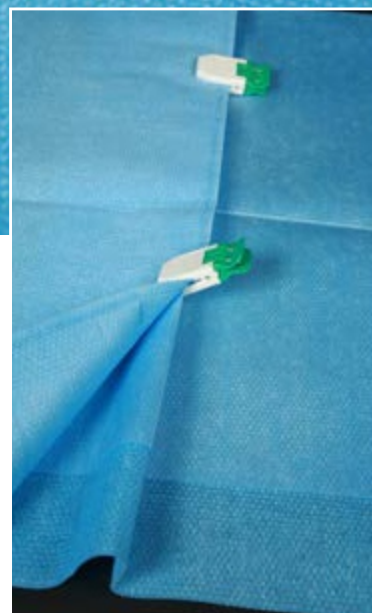

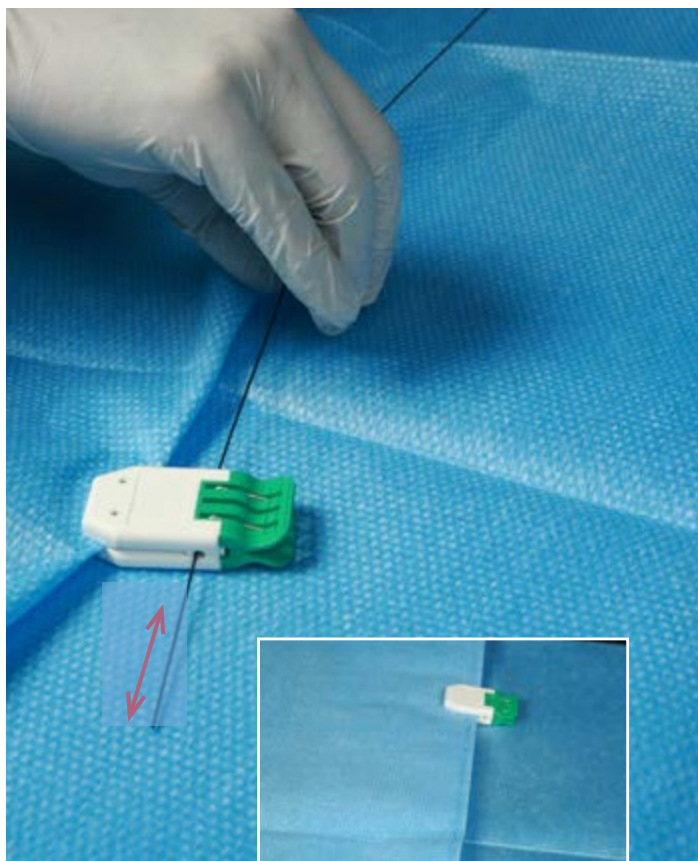

Model 4600 Securement Clasp

Key Benefits Include:

- Soft elastomeric pad gently secures and organizes multiple coiled wires and catheters.
- Helps to prevent contamination during every phase of the interventional procedure.
- Unique “Wire Channel” design allows for convenient wire advancement and management of guidewire’s distal end.
- Enables easy handling of hydrophilic wires from drapes or bowls.
- Available in multiple color options to help distinguish wires from one another.
- Enables securement of one drape to another.
- Convenient size (1.13”W x 2.3” L x 0.5” H) and weight (0.6 oz).
- Economical, sterile, single-use.
- Made in the USA.
