

VASO^{STAT}[®]

H E M O S T A S I S D E V I C E

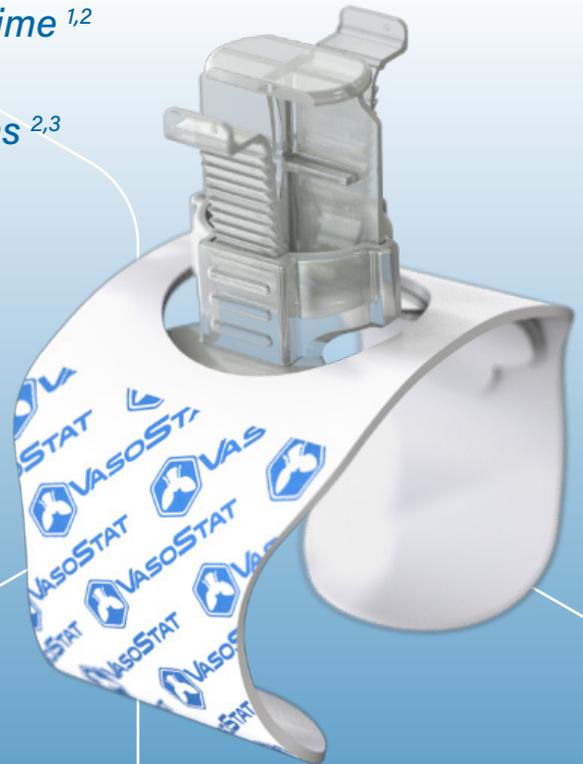

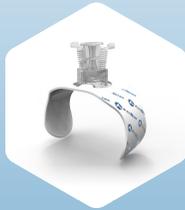

MORE FOCUSED PRESSURE

Leads to these **clinically proven** benefits compared to the leading radial band:

FASTER *Patent hemostasis in less time*^{1,2}

EASIER *Fewer nursing manipulations*^{2,3}

SAFER *Maintains hand perfusion*⁴

ONE SIZE FITS ALL

Align over artery entry site

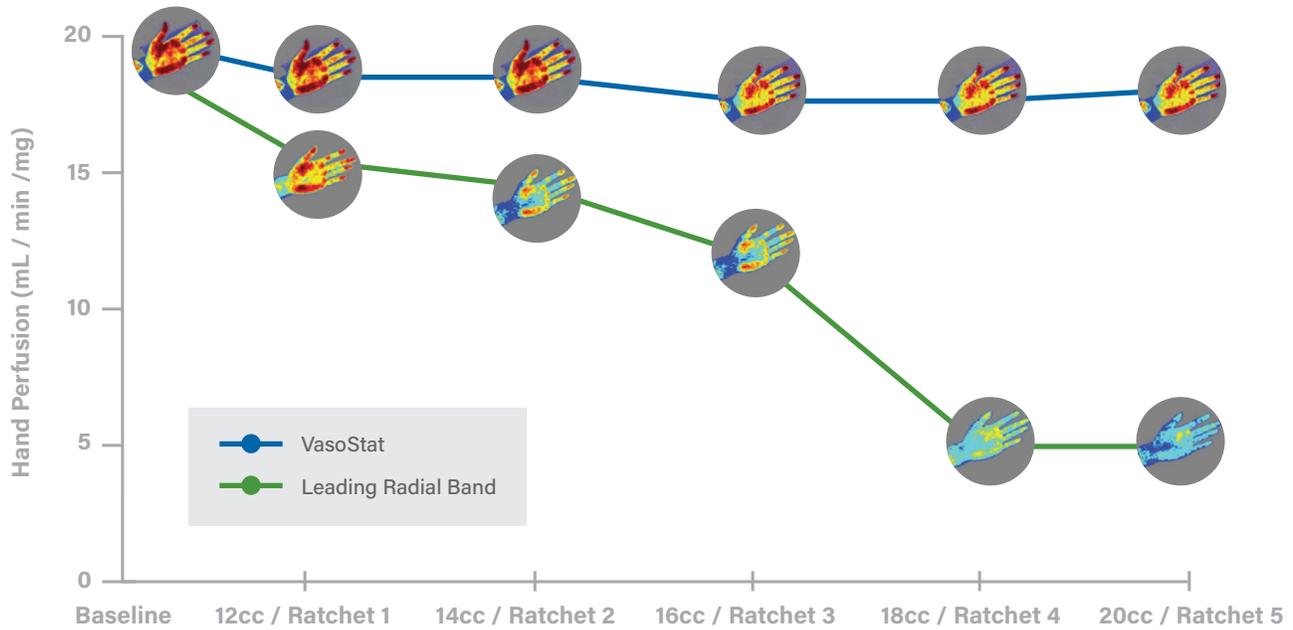

Secure with adhesive pad

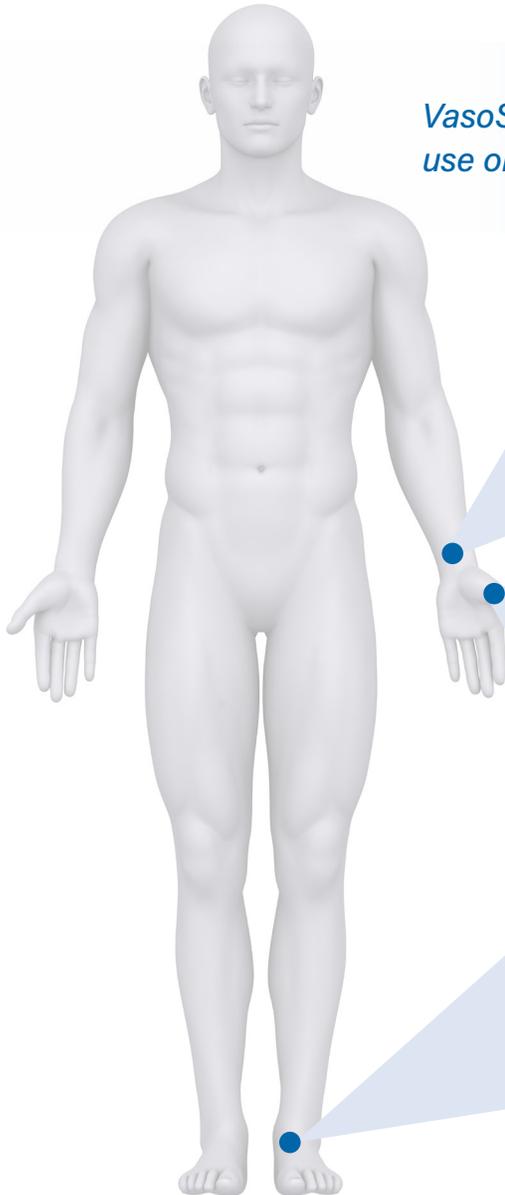

Insert and depress plunger while removing sheath

Comparison of Blood Flow to Hand

VasoStat is the only hemostasis device FDA cleared for use on radial, distal radial and tibial/pedal access points.
