

Port Eliot

PE-758SA • Console, Sasa

w. 58", d. 17.5", ht. 30"

A clever and delightful tier console with Sasa top. Sasa is a variety of bamboo that grows in abundance in the Philippines. The finely crushed SaSa is hand applied to each piece. The Filipino word "Sasa" means to crush or loosen the stalk of the plant. Sasa bamboo is extremely strong and durable. Port Eliot offers a fresh new technique to crush bamboo to give this piece a light and airy appearance.
